Dear Parent/Guardian,

Port Jervis High School has applied through the Orange County Green Star Program. The goal of the Orange County Green Star Schools Program is to encourage waste reduction in Orange County schools by recognizing incremental successes in waste reduction by individual Orange County schools and school districts. This program provides schools with technical assistance and support in implementing sustainable waste prevention, reduction and recycling programs. The coordinators did a site inspection two weeks ago and we were given 3 of 5 Green Stars! This is a great start, but as many of you know we throw away a lot of recyclable material, so there is still plenty of room for growth.

As we are in the initial planning stages, we are still doing a little data gathering. If you have a moment we're wondering if you could take a survey to help with the process. It should take no more than 5 minutes of your time and it is anonymous.

Thank you for your time and consideration,

The Green Team
